## for a family man

and a family car for a business man. Either way a Velox gives you prestige, roominess, comfort, "parkability" and top-notch performance. The 1957 Vauxhalls are real petrol-savers . . . saving 8% more than the very economical 1956 models! Add high resale value and the fact that Vauxhalls cost less to maintain than any comparable cars and you see why *it's good business for your family to run a Vauxhall.*
